aryaka

ARYAKA NETWORKS CASE STUDY

Financial Services Company Accelerates Global Applications with Aryaka SmartServices

Introduction

This case study of a medium enterprise financial services company is based on a February 2021 survey of Aryaka Networks customers by TechValidate, a 3rd-party research service. The profiled company asked to have their name blinded to protect their confidentiality.

> "Aryaka accelerated performance across the globe by 2X and increased the speed between our Bangalore, India and Palo Alto sites."

Challenges

Prior to deploying Aryaka SmartServices, the surveyed company was experiencing the following issues:

- Application performance issues between Bangalore and California
- Slow deployment times for new sites

Use Case

The financial services company evaluated and ultimately selected Aryaka to:

- Accelerate global applications

Results

After deploying Aryaka SmartServices, the financial services company achieved the following results:

- Stable, reliable connectivity for end-users globally, particularly for Bangalore-based users
- Saved an estimated 10-25% of IT resources' time, allowing the IT organization to evolve into more strategic partners to the business

Company Profile

The company featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.
